

This comment relates to FCC Proceeding 17-108: "Restoring Internet Freedom"

I oppose the repeal of Net Neutrality rules, and support Title 2 oversight of ISPs. Proceeding 17-108 will stifle innovation and reduce freedom of access, and should not be allowed to go forward.

I am a living human being, and an American citizen, and am deeply disturbed that news reports indicate I need to confirm those facts. Should this need to be verified, I am:
